SOUTHEAST INVESTMENTS, N.C., INC.
NOTES TO FINANCIAL STATEMENTS
FOR THE YEAR ENDED DECEMBER 31, 2017

Note 1 - Organization and Nature of Business:

Southeast Investments, N.C., Inc. (the "Company") is a North Carolina Corporation. The Company is an introducing broker-dealer registered with the Securities and Exchange Commission ("SEC") and is a member of the Financial Industry Regulatory Authority ("FINRA"). Headquartered in Charlotte, North Carolina, the Company executes general securities transactions for customers located throughout the United States. Trades are cleared by COR Clearing, LLC.

Note 2 - Significant Accounting Policies:

Cash and cash equivalents:

The Company considers all highly liquid investments having an original maturity of three months or less to be cash equivalents. Amounts invested may exceed federally insured limits at any given time.

Security transactions:

Proprietary securities transactions in regular-way trades are recorded on the trade date, as if they had settled. Profit and loss arising from all securities and commodities transactions entered into for the account and risk of the Company are recorded on a trade-date basis. Marketable securities are valued at market value.

Revenue recognition:

The revenues of the Company are derived primarily from commissions earned on securities transactions and are recorded when earned. Securities transactions are recorded on the trade-date basis.

Income taxes:

Income taxes are determined in accordance with Financial Accounting Standards Board Accounting Standards Codification ("FASB ASC") Topic 740, "Income Taxes," which requires an asset and liability approach for financial accounting and reporting of income taxes. Deferred income taxes are recognized for the tax consequences in future years of differences between the tax bases of assets and liabilities and their financial reporting amounts at each year end based on enacted tax laws and statutory tax rates applicable to the periods in which the differences are expected to affect taxable income. Valuation allowances are established when necessary to reduce deferred tax assets to the amount expected to be realized. Amounts provided for deferred taxes relate primarily to the effects of net operating and capital loss carry forwards. Any tax related penalties and interest are recorded in the period in which they are incurred.

Note 2 - Significant Accounting Policies (continued):

Income taxes (continued):

FASB ASC 740-10 clarifies the accounting for income taxes, by prescribing a minimum recognition threshold a tax position is required to meet before being recognized in the balance sheet. It also provides guidance on derecognition, measurement and classification of amounts related to uncertain tax positions, accounting for and disclosure of interest and penalties, accounting in interim period disclosures and transition relating to the adoption of new accounting standards. Under FASB ASC 740-10, the recognition for uncertain tax positions should be based on a more-likely-than-not threshold that the tax position will be sustained upon audit. The tax position is measured as the largest amount of benefit that has a greater than fifty percent probability of being realized upon settlement. Management has determined that adoption of this topic has had no effect on the Company's balance sheet. The Company is no longer subject to U.S. federal or state income tax examinations by tax authorities for years before 2014.

Property and equipment:

Property and equipment is stated at cost. The service lives for all property and equipment have been estimated at three to five years and the straight-line method is used for depreciation purposes. Maintenance and repairs that do not improve or extend the lives of the respective assets are expensed currently. As property and equipment were fully depreciated in previous years, there was no depreciation expense for the year ended December 31, 2017.

Computation of customer reserve:

The Company is exempt from customer reserve requirements and providing information relating to possession or control of securities pursuant to rule 15c3-3 under the Securities Exchange Act of 1934. The Company meets the exempting provisions of Paragraph (k)(2)(ii).

Advertising:

The Company's policy is to expense advertising costs as the costs are incurred.

Use of accounting estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of certain assets and liabilities and disclosures. Accordingly, the actual amounts could differ from those estimates. Any adjustments applied to estimated amounts are recognized in the year in which such adjustments are determined.

Fair value measurement:

FASB ASC Topic 820, "Fair Value Measurement," defines fair value, establishes a framework for measuring fair value, and establishes a fair value hierarchy which prioritizes the inputs to valuation techniques. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. A fair value measurement assumes that the transaction to sell the asset or transfer the liability occurs in the principal market for the asset or liability or, in the absence of a principal market, the most advantageous market.

Note 2 - Significant Accounting Policies (continued):

Fair value measurement (continued):

Valuation techniques that are consistent with the market, income or cost approach, as specified by FASB ASC 820, are used to measure fair value.

The fair value hierarchy prioritizes the inputs to valuation techniques used to measure fair value into three broad levels:

- Level 1 inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities the Company has the ability to access.
- Level 2 inputs are inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3 are unobservable inputs for the asset or liability and rely on management's own assumptions about the assumptions that market participants would use in pricing the asset or liability. The unobservable inputs should be developed based on the best information available in the circumstances and may include the Company's own data.

The Company's securities owned throughout the year were all valued using Level 1 inputs. Additionally, the Company's financial instruments include cash, accounts receivable, accounts payable, accrued expenses and other liabilities. The carrying amounts of these financial instruments approximate fair value due to their short maturities.

Note 3 - Marketable Securities:

The Company's marketable securities usually consists of corporate stocks that are valued using Level 1 inputs. As of December 31, 2017, the company had no marketable securities.

Note 4 - Net Capital Requirements:

The Company is subject to the Securities and Exchange Commission Uniform Net Capital Rule (SEC Rule 15c3-1), which requires the maintenance of minimum net capital and requires that the ratio of aggregate indebtedness to net capital, both as defined, shall not exceed 15 to 1 or a minimum net capital of \$50,000 unless the company exceeds 10 trades during the year for its own account. At December 31, 2017, the company had net capital of \$146,349 which was \$96,349 in excess of its required net capital of \$50,000. The Company's aggregate indebtedness to net capital ratio was 3.44 to 1.

Note 5 - Related Party Transactions:

Three affiliated companies, related through common ownership or family members of a shareholder, provide various management services to the Company. For the year ended December 31, 2017, the Company incurred management fees of \$556,346 for those services.

The Company leases office space from related parties. The lease terms are month to month and the Company paid rent of \$144,000 to these parties for the year ended December 31, 2017.

No amounts were payable to or receivable from related parties as of December 31, 2017 except for due from affiliate of \$243,000. See Note 8 for further discussion.

Note 6 - Income Taxes:

The provision for income taxes at December 31, 2017 consists of \$0 of federal current taxes and \$0 of state taxes, with \$0 of federal and state deferred taxes. The full amount of the net deferred tax assets of \$160,000 federal and \$25,000 state has been fully offset by a valuation reserve.

The provision for income taxes of zero percent consists of the federal statutory rate of 34 percent reduction of 13 percent for changes in tax law, state tax rate of five percent, net of federal benefit, and a reduction of 26 percent as a result of a valuation reserve on net operating loss carry forwards. Federal net operating losses are approximately \$750,000 as of December 31, 2017. State net operating losses are approximately \$525,000 as of December 31, 2017. These are due to begin expiring in 2034.

Note 7 - Cash Flow Information:

Supplemental cash flow information for the year ended December 31, 2017 is as follows:

Interest expense	\$ <u> 6</u>
------------------	---------------------

Income taxes	\$ <u> -</u>
--------------	---------------------

Note 8 – Due From Affiliate and Contingent Liability:

The Company is subject to various claims and legal proceedings in the ordinary course of business activities. On March 3, 2017, the Company and a manager and former shareholder were sanctioned by a FINRA Extended Hearing Panel regarding certain violations related to recordkeeping and agent site visits. Sanctions included a statutory disqualification and fines of \$243,000. The sanctions have been stayed pending appeals. The Company and the shareholder disagree with the findings and are vigorously defending themselves through the appeals process. In accordance with FASB ASC 450-20 – Loss Contingencies a contingent liability of \$243,000 has been recorded on the Statement of Financial Condition.

Pursuant to the former shareholder's contractor agreement with the company, he is personally responsible for any fines from rule violations which resulted from his actions and decisions. Accordingly, a receivable of \$243,000 has been included in due from affiliate on the Statement of Financial Condition.

Note 9 - Subsequent Events:

The Company evaluated all events and transactions through February 27, 2018, the date these financial statements were issued. During this period, there were no material recognizable or non-recognizable subsequent events.
